EDUCATION

New Jersey Institute of Technology
M.S. in Data Science
GPA: 3.48 | Expected 05/26

MS Ramaiah University of Applied Sciences
B.E. in Computer Science
GPA: 3.2 | Graduated 05/24

TECHNICAL SKILLS

- PythonRSQLMySQL
- TableauPower BI
- Dashboard DesignKPI Reporting
- Data StorytellingData Visualization
- Executive Reporting

CERTIFICATIONS

- SQL Certification (Microsoft)
- AWS Certified Data Analytics - Specialty

KUSHAL SRINIVAS

DATA SCIENCE GRADUATE | ANALYTICS & BI PROFESSIONAL

SUMMARY

Motivated Data Science graduate student at NJIT with a strong foundation in analytics, business intelligence, and data-driven decision-making. Experienced in designing dashboards, building predictive models, and translating complex data into actionable insights. Passionate about leveraging data to solve real-world business problems and drive operational excellence across industries.

PROFESSIONAL EXPERIENCE

AUM Infotech — Passenger Counting System Jan 2024 - Feb 2024
Software Engineer Intern | Bengaluru, India

- Supported enterprise application systems by troubleshooting issues and improving reporting workflows.
- Collaborated with business and technical teams to document requirements and resolve system gaps.
- Assisted in system performance monitoring and operational support activities.

Integra Micro Systems Aug 2023 - Nov 2023
Data Science Intern

- Conducted root-cause analysis on application incidents, improving reporting stability.
- Documented business rules and translated functional requirements into technical insights.
- Supported system testing, validation, and quality assurance processes.
- Partnered with cross-functional stakeholders to improve reporting accuracy and operational processes.

PROJECTS

Automated Diabetic Retinopathy Detection Jan 2024 - Aug 2024
Analytics & Decision-Support Project

- Framed analytical objectives and defined measurable performance metrics for clinical data.
- Built data-driven models to support decision-making; documented assumptions for stakeholders.
- Applied database design principles in structured data modeling and analytics pipelines.
- Presented findings in a structured, business-focused summary format.

Financial Data Visualization (Power BI) Sep 2023 - Dec 2023
Business Intelligence & Reporting

- Designed process-driven data models and DAX measures to support operational decision-making.
- Developed KPI dashboards to monitor performance and support management reporting.
- Partnered with cross-functional stakeholders to improve reporting accuracy and operational processes.
